|                                   |                     |
|-----------------------------------|---------------------|
| <b>Body color</b>                 | Painted white       |
| <b>Primary connection voltage</b> | 230 Volt            |
| <b>Dimmable</b>                   | Phasenabschnitt (C) |
| <b>Input power</b>                | 10 Watt             |
| <b>Light color</b>                | 2700 K              |
| <b>LED luminous flux</b>          | 800 lm              |
| <b>Color rendering index</b>      | CRI 90              |
| <b>Safety class</b>               | 2                   |
| <b>Ingress protection</b>         | IP20                |
| <b>Weight</b>                     | 0.43 kg             |

### Information on operating LED lights

Thank you for choosing our LED lights.

To ensure the best possible performance and longevity of your new lighting, please observe the following instructions:

1. When operating LED lights, visible, brief changes in light may occur due to voltage changes in the mains. This does not constitute a defect in the light.
2. For dimming LED lights. Not all LED lamps are compatible with all dimmers. Please check compatibility before installation. Incompatibility does not constitute a defect in the luminaire.

3. Flickering at low dimmer settings (from 50%): When using dimmers, slight flickering may occur at low settings. This is normal behaviour and does not constitute a defect in the luminaire.
