

## **ADDITIONAL INFORMATION**

### **Delivery information**

In Germany, the packaging is disposed of at specialised electrical wholesalers, electrical trade and electrical retailers. For this purpose, BRUCK GmbH & Co. KG has concluded a framework agreement with INTERSEROH AG (No. 80389). BRUCK itself does not take back any packaging. For regulations on markets outside Germany, please contact your local sales partner.

### **Law on the placing on the market, taking back and environmentally sound disposal of electrical and electronic equipment**

BRUCK ensures that all products can be disposed of in an environmentally friendly manner. For this purpose BRUCK is registered in Germany in the Waste Electrical and Electronic Equipment Register under the number DE17610482 in Germany. In this way, BRUCK makes an important contribution to protecting our environment. For regulations on markets outside Germany, please contact your local sales partner.

### **Restriction of harmful substances according to RoHS.**

All BRUCK products comply with the RoHS requirements, which restrict the use of certain use of certain hazardous substances.
